Coke Drum Factory Tour and Dinner

G&G International, is a world leader in the engineering and fabrication of large pressure vessels such as coke drums, columns, reactors, spheres, bullets, cyclones, etc. Atmospheric storage tanks and various other heavy metal constructions complete the scope.

G&G International nv warmly invites all attendees of the 2008 Köln (Cologne) Coking.com Conference to join them in a Tour of their Factory and Dinner to follow. As we continue to build the Coking Community, we invite you to bring your spouse.

Thursday, 2 October, 2008 after the close of the Coking.com Cologne Conference, the bus leaves at 14:00 for Willebroek, Belgium, alongside the Brussels-Antwerp sea canal. The tour starts at 16:30, dining at 18:00 and returning at 22:30.
